Secondary Competency Task List		
100	Safety	
101	Follow current ergonomic best practices for health, safety and productivity.	
102	Organize and maintain workstation.	
103	Describe and demonstrate ways to dissipate electrostatic discharge and related risks.	
200	Professional Business Procedures	
201	Practice multimedia and telecommunications etiquette.	
202	Identify, proofread, and correct grammar errors in all documents.	
203	Practice professional interpersonal communication skills.	
204	Use time management skills.	
205	Prepare business correspondence and technical documents.	
206	RESERVE	
207	Identify needs and build rapport with end users.	
208	Develop and perform conflict resolution practices.	
209	RESERVE	
210	RESERVE	
211	RESERVE	
300	Business Law and Ethics	
301	Identify the principles of business law and ethics and explain how they relate to business policies such as intellectual property.	
302	RESERVE	
303	Explain crimes often associated with businesses and organizations (e.g., embezzlement, extortion, and computer crimes).	
304	RESERVE	
305	Identify improper use of business technology and property (e.g., computers, mobile devices, and telephones).	
306	Identify legal safeguards to protect sensitive data and preserve confidentiality.	
307	RESERVE	
308	RESERVE	
309	RESERVE	
310	RESERVE	
400	Computer and Internet Fundamentals	
401	Use terminology associated with online technologies.	
402	Stay current with new and emerging technologies and certifications.	
403	Use advanced search engine techniques to locate resources.	
404	Identify components of a computer system and related peripherals.	

Unit/Standard Number	<p style="text-align: center;"><u>High School Graduation Years 2018, 2019, and 2020</u></p> <p style="text-align: center;">Management Information Systems CIP 52.1201 Task Grid</p>	Proficiency Level Achieved: (X) Indicates Competency Achieved to Industry Proficiency Level
405	Navigate and manage operating systems and utility programs.	
406	Identify the types of telecommunication devices and networks.	
407	Use proper file management techniques.	
408	Use a variety of cloud computing services.	
409	RESERVE	
410	Utilize multimedia presentation software for professional communication.	
411	Design, edit and publish documents using appropriate software.	
412	Identify and explain the variety of E-commerce models (ie. B2B, C2B, B2C, C2C).	
500	Data Analysis Software	
501	Manage and manipulate data using spreadsheets.	
502	Generate and analyze graphs and associated data using spreadsheet software.	
503	Create and edit spreadsheet macros.	
504	Integrate data (e.g., payroll or inventory data) using spreadsheet software.	
505	Create formulas and use built in functions using spreadsheet software.	
600	Database Administration	
601	Design a database structure.	
602	Create entity-relationship diagram.	
603	Create tables and modify fields.	
604	Build forms to capture, manipulate and display data.	
605	Construct and manage queries using one or more tables.	
606	Design and arrange reports using filters.	
607	Apply normalization to relational databases.	
608	RESERVE	
609	Implement security, back-up and recovery procedures.	
610	Import and export data into other applications.	
700	Programming and System Development	
701	Apply working knowledge of the System Development Lifecycle (system investigation/project proposal, analysis, design, code/test, implementation and maintenance).	
702	Differentiate programming fundamentals (e.g., system processing, integration, generations of languages, binary code, object code, source code).	
703	Declare and manipulate various data type variables.	
704	Utilize program control structures (e.g., decisions, loops, functions/subroutines, arithmetic and logical operations, etc.)	
705	Create working graphical user interfaces (GUI).	
706	Create, test and debug successful computer programs.

707	Create clear and thorough program documentation.	
800	RESERVE	
801	RESERVE	
802	RESERVE	
803	RESERVE	
900	Computer Maintenance/Troubleshooting	
901	Apply the troubleshooting theory.	
902	Analyze and correct common hardware problems and performance issues.	
903	Analyze and correct common software problems and performance issues.	
904	Integrate common preventative maintenance techniques.	
905	Analyze and correct basic network problems and performance issues.
